Assessment**

Remote or Installed Assessment Option: Netaphor offers the flexibility of two assessment applications. Deciding which application to use depends on: the analysis requirements; IT barriers to installing software; the assessment timeframe, the customer location, and customer size.

>01 Remote Snapshot Assessment

SiteAudit Compact is a remote assessment without any installation requirements. Both local and networked printers are tracked without having to install desktop agents. Compact is used to take environmental snapshots.

>02 Installed Comprehensive Assessment

Install SiteAudit to collect the largest data set available. This result provides User, Inventory, Volume, Efficiency and Reliability metrics that indicates areas of cost savings. It is perfect analysis for reducing costs and right-sizing the fleet for medium to enterprise organizations.

ASSESSMENT MEASURES
