

Empowering Managed Print Services

Auditing and Fleet Management

Netaphor
Software

Netaphor Site Audit Solutions for

Tools for Managed Print Services

SiteAudit MPS tools empower users with tracking, analysis, alerting and reporting capabilities. From basic meter tracking and supplies replenishment to advanced service performance measures such as Uptime percent, SiteAudit tools provide the best auditing and fleet management features. MPS providers can select SiteAudit On-Site for enterprise and security sensitive environments and SiteAudit Hosted or SiteAudit Compact for remote management and fleet auditing.

Business Intelligence

SiteAudit business intelligence is based on collecting the most data from networked and local printers, and providing the best analysis. For instance estimating the supplies replacement date or alerting the fleet manager when a printer has moved departments, leads to the ultimate business goal: cost savings. Try SiteAudit today visit www.netaphor.com
